

Photo Session Tips

Men:

- Please refrain from wearing herringbone, pinstripes, seersucker, corduroy or small checked patterns.
- Spiked hair is popular but our lighting may cast unwanted shadows on your face.
- Hair gel does create a glare that is not easily removed.
- Properly fitted shirts, ties and jackets result in the best photograph.
- If a 5:00 shadow is a look you do not like, please shave.

Women:

- Due to the nature of studio lighting, heavy makeup may make you appear "flat" and "pasty"; so please keep your makeup as natural as possible.
- Very glossy lipstick, sparkle lotions and glitter eye shadow do not photograph well.
- Do a final check of hair and make-up in mirror, provided by Vantine

Both:

- Wear glasses only if necessary.
- Use a lint brush on clothing.
